

The Three Types of Vitamins

QUALITY COMPARISON

1. Test Tube or Synthetic

(Usual drug store variety)

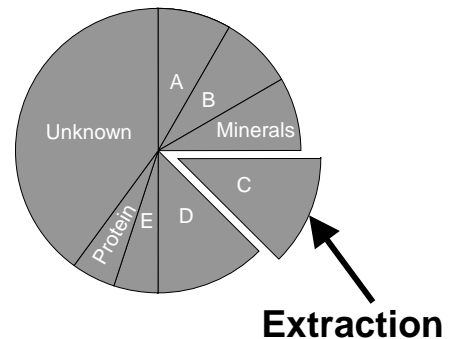

- ◆ Man made
- ◆ No enzymes
- ◆ Inorganic substances
- ◆ Side effects

2. Natural Isolate/Organic Extract

(Usual health food store and other nutrition companies)

- ◆ Low quality raw materials
- ◆ Unbalanced
- ◆ Heat extracted
- ◆ Weak enzymes
- ◆ Fillers
- ◆ Harsh binders
- ◆ Uses chemicals in processing

3. Natural (Shaklee)

- ◆ Highest quality raw materials
- ◆ Balanced
- ◆ Low heat, low pressure processing
- ◆ Strong enzymatic action retained
- ◆ Exceptional bio-availability at cell level
- ◆ Backed by independently proven scientific research
